M4-12-1638-01

MFDR Date Received

January 17, 2012

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "Medicare would have allowed this facility \$1,860.98 for the MAR at 200%"

Amount in Dispute: \$515.76

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "The Carrier contends the Provider is not entitled to additional reimbursement."

Response Submitted by: Travelers Indemnity Co

SUMMARY OF FINDINGS

Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
February 14, 2011	Outpatient Hospital Services	\$515.76	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 97 – PYMT ADJUSTED BECAUSE THE BENEFIT FOR THIS SVC IS INCLUDED IN THE PYMT/ALLOWANCE FOR ANOTHER SVC/PROCEDURE THAT HAS ALREADY BEEN ADJUDICATED. PYMT INCL IN APC RATE PER TX HOSP MEDICARE METHODOLOGY PER RULE 134.403(D)
 - W1 – WORKERS COMPENSATION STATE FEE SCHEDULE ADJUSTMENT.

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?

2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables is not applicable.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 73580 has a status indicator of Q2, which denotes T-packaged codes; payment for these services is packaged into the payment for any other procedures with status indicator T that are billed for the same date of service. This code may be separately payable only if no other such procedures are billed for the same date.
 - Procedure code 77002 is unbundled. This procedure is a component service of procedure code 73580 performed on the same date. Payment for this service is included in the payment for the primary procedure. Per Medicare policy, these two codes may not be reported on the same date of service unless an appropriate modifier is appended to the component code to differentiate between the services provided. Separate payment for the services billed may be justified if a modifier is used appropriately. The requestor did not submit modifier. Separate payment is not recommended.
 - Procedure code 20610 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0204, which, per OPPS Addendum A, has a payment rate of \$183.78. This amount multiplied by 60% yields an unadjusted labor-related amount of \$110.27. This amount multiplied by the annual wage index for this facility of 0.8555 yields an adjusted labor-related amount of \$94.34. The non-labor related portion is 40% of the APC rate or \$73.51. The sum of the labor and non-labor related amounts is \$167.85. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$167.85. This amount multiplied by 200% yields a MAR of \$335.70.
 - Procedure code 73723 has a status indicator of Q3, which denotes conditionally packaged codes that may be paid through a composite APC. If OPPS criteria are met, this service is assigned to composite APC; however, review of the submitted information finds that the criteria for composite payment have not been met. Therefore, this line may be paid separately. This line is assigned status indicator S, which denotes a significant procedure, not subject to multiple-procedure discounting, paid under OPPS with separate APC payment. These services are classified under APC 0337, which, per OPPS Addendum A, has a payment rate of \$533.60. This amount multiplied by 60% yields an unadjusted labor-related amount of \$320.16. This amount multiplied by the annual wage index for this facility of 0.8555 yields an adjusted labor-related amount of \$273.90. The non-labor related portion is 40% of the APC rate or \$213.44. The sum of the labor and non-labor related amounts is \$487.34. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$487.34. This amount multiplied by 200% yields a MAR of \$974.68.
 - Procedure code J7050 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. The total allowable reimbursement for the services in dispute is \$1,310.38. This amount less the amount previously paid by the insurance carrier of \$1,690.49 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
